WE ARE CAMPUS LINK FOUNDATION,

a not-for-profit youth-led organisation striving for equality of opportunity in the NZ education system, by providing secondary students with the tools to achieve academic success.

We do this by connecting university students with secondary school students, such as yourself, over one to two-day immersion courses during the September school holidays.

There are 1 to 2 days allocated per subject, split into half day sections. You will be in small classes of approximately 5 students to enable a more personable and effective learning experience.
